About Plant Plus

Plant Plus is a forward-thinking company dedicated to developing environmentally responsible packaging solutions. By using plant-based materials like agricultural by-products, we aim to reduce reliance on conventional plastics and support a more sustainable, circular economy.

Job Summary

We are currently seeking a Quality Control Technician – Chemistry to support our lab operations and production quality assurance processes. The ideal candidate is detail-oriented, experienced, and passionate about sustainable materials and product integrity.

Qualifications

- **Languages:** English
- **Education:** Bachelor's degree in Chemistry, Chemical Engineering Technology, or a related field
- **Experience:** 1 to 2 years of experience in a chemical lab or quality control environment

Responsibilities

- Conduct sampling and analysis using chromatography techniques
- Conduct tests and analysis using spectroscopy techniques
- Conduct tests and analysis using other physical and chemical separation techniques
- Use techniques such as chromatography, spectroscopy, physical and chemical separation techniques, and microscopy
- Prepare solutions of gas or liquid, reagents, and sample formulations

- Operate laboratory apparatus and maintain laboratory equipment
- Set up chemical experiments, tests, and analyses
- Assist in the setup and conduction of chemical experiments
- Assist in developing programs of sampling and analysis to maintain quality standards
- Assist in the development of standards, health and safety measures
- Compile records and interpret experimental or analytical results
- Use MS Office for data logging, reporting, and internal documentation
